Forecast For Wales
Issued by Met Office Exeter
at 1600 on Friday 10 Dec 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Grey and increasingly murky on Saturday with rain at times.

This Evening and Tonight:
Showers continuing into this evening, particularly in the north and west, with only isolated ones in the south. Becoming dry and cold through the early hours, but turning cloudier later with patchy light rain reaching the far west by dawn. Minimum temperature 1 deg C (34 deg F).

Saturday:
A generally cloudy and increasingly damp day with rain and drizzle in the west spreading east to most areas. Becoming milder but with extensive low cloud and hill fog. Maximum temperature 13 deg C (55 deg F).

Outlook for Sunday to Tuesday:
Remaining largely unsettled and cloudy with occasional periods of rain, but perhaps brighter on Tuesday. Breezy at times, with strong winds on Sunday night. Staying on the mild side throughout.
